

# Accessibility report

This accessibility report applies to RecRight's video interviewing tool and email template for the candidate and was prepared on 10 June 2021. Even though the service is not subject to the Finnish Act on the Provision of Digital Services, RecRight strives to provide its customers with online services that are as accessible and easy to use as possible.

The accessibility of the service has been assessed by an external expert organisation on 31 May 2021. Latest update to the document has been made 5.11.2021

The results of the accessibility audit have been taken into account in the development of the online service, and measures are being taken to implement the necessary changes. This report will be updated as improvements are made.

## The online service partially meets the accessibility requirements

The problems identified are described in more detail below.

### Inaccessible Content

The website does not yet meet all the requirements.
